

AWARDS SCHEME FOR EMEPLARY IMPLEMENTATION OF
e - GOVERNANCE INITATIVES

PROFORMA OF MAIN APPLICATION FORM (for applying through e-mail) for
NATIONAL AWARDS FOR E-GOVERNANCE

1. Name of the Organization :

MYSORE CITY POLICE

2. Name of the Department :

KARNATAKA STATE POLICE

3. Name of the State/UT/Central Government/Others :

KARNATAKA

4. Name of the Project :

AUTOMATED TRAFFIC CHALLANING SYSTEM

5. Nature of the Project :

TRAFFIC ENFORCEMENT THROUGH INFORMATION TECHNOLOGY

6. Category of Award Applying for

INNOVATIVE USE OF TECHNOLOGY IN e-GOVERNANCE

7. Objective of the Project : (Please provide the brief summary of the project nominated for the national Award for e-Governance along with salient features(in 500 words approx)

The Spectacular growth of vehicular traffic in India during last 2 decades has resulted in traffic congestion, pollution, longer journey time and increased road accidents. This is due to rapid urbanization, unprecedented growth of industry, Commerce and employment in urban areas especially cities. Thousands of vehicles have been added to roads every day without commensurate infrastructure development. Today in Indian Metros like New Delhi, Mumbai, Kolkata, Chennai, Bangalore and Hyderabad have between them nearly 20 million vehicles. The resulted scenario is that, there are too many vehicles occupying roads. Therefore, the greatest challenge for City Police Managers is Traffic Management on par with maintenance of Law & order and prevention of crime.

Apart from enormous growth of vehicles, poor traffic enforcement is one of the causes for traffic congestion and poor discipline on roads. Road users do not follow traffic rules as violation is a rule not an exception. The old manual challaning system prevalent in most of the cities is not effective, as deterrence level is minimum. In manual challaning system, there is no mechanism to punish repeated offenders. The system is also not transparent as manual booking system breeds corruption and harassment.

In order to bring transparency in challaning traffic offenders, Mysore City Traffic Police started the Enforcement Automation Centre in 14th May 2013. In this system, violation of traffic rules by road users is captured on cameras and computerized Challans are sent to the owners of vehicles to pay up traffic fines.

This system has proved to be effective for enforcing traffic rules. This system has the advantage of using technology with least human intervention. This system of traffic enforcement is very effective and has gained public acceptance and support.

In the days to come, it serves as an effective tool in reducing Police-public interface in traffic enforcement. This system has several advantages like;

- It brings transparency in enforcement of traffic rules.
- Avoids conflicts between police & public
- Increases awareness of traffic rules and regulations
- Reduction in the processing time of violation and disposal of the same
- It helps in identification of repeat violation and imposing enhanced fine.
- It can be used as an effective tool of e-governance to manage, monitor and administration.

8. Date of launch of project (please see para 6.2 for eligibility of the project with reference to launch date)

: 14-05-2013

- (i) For all categories except incremental Innovation (dd/mm/yyyy):
- (ii) For Incremental innovation (period during which substantial incremental innovation has been made in the project)-
Year of National e-governance Award

9. Beneficiary of the Project :

This project aims at bringing in transparency in traffic enforcement by avoiding police public conflicts and to put a check on rash and negligent driving by quality enforcement and create awareness of traffic rules and regulations among road users, and to build a database of frequent traffic rule violators and to initiate corrective and punitive actions such as enhanced fines, suspension of driving licences, registration certificates and permits as provided in IMV act.

With the old challaning system which was in practice till 12th June 2012 fine amount of Rs. 3,92,10,150 /-was collected after using blackberry and Automated Challaning system till date fine amount Rs. 7,43,76,500/- was collected and a rise of 89.6 % is seen, and beneficiary of this project is the State Government of Karnataka.

Senior Officers can monitor activities of subordinate officers from the reports generated by MIS details pertaining to number of cases booked, fine amount collected, Police notice issued can be generated on daily, weekly and monthly basis at a click of a button, making it an effective toll e-Governance to manage, monitor and Administer Law enforcement in the field by putting an end to corruptive practices bringing in greater transparencies in traffic enforcement.

AWARDS SCHEME FOR EXEMPLARY IMPLEMENTATION OF e-GOVERNANCE INITIATIVES
