Project id -	NAeG/14-15/00026
Name of The Project	Bringing e-Governance to the Citizens doorstep
Category of Award Applying for	Use of ICT for Development by Non-Government Institutions
Date of Launch	01-08-2012
Summary/Objective of the project	<p>In creating this amazing network of CSCs, which is the largest of its kind in the area of ICT in the country, Sahaj has created not only a platform for delivery of Government to Citizen Services (G2C) and Government to Government Services (G2G) as well as Business to Citizen (B2C) services, but has also ushered in an entrepreneurial revolution in rural India as each of its CSC is owned and managed by a Village Level Entrepreneur (VLE). In creating over 26,000 CSCs in 6 States, Sahaj has created an equal number of rural entrepreneurs who are increasingly becoming the main source of information, services and products to the rural citizens. If these CSCs are the cornerstones of economic change, the VLEs are acting as catalysts to usher in the social change. The core purpose of Sahaj is empowering rural India using Sahaj's world class ICT enabled infrastructure led by an inspired team of village entrepreneurs and engaged employees for delivering both Government and consumer products and services.</p> <p>- Rural citizens - Rural entrepreneurs - Rural job-seekers & students - Various Govt. Departments</p>
