

Project Details: NAeG/14-15/00086

Project id -	NAeG/14-15/00086
Name of The Project	Crime and Criminal Tracking Network and systems (CCTNS)
Category of Award Applying for	Excellence in Government Process Re-engineering
Date of Launch	13-03-2013
Summary/Objective of the project	<p>Summary/Objective of the project The Crime and Criminal Tracking Network Systems (CCTNS) was conceptualized by the Ministry of Home Affairs and implemented as a Mission Mode Project (MMP). CCTNS created a comprehensive and integrated system for enhancing the efficiency and effective policing at all levels and especially at the Police Station level through adoption of principles of e-Governance, and creation of a nationwide networked infrastructure for evolution of IT-enabled state of- the-art tracking system around investigation of crime and detection of criminals in real time. The vision of the project is to transform the police force into a knowledge-based force and improve the delivery of citizen-centric services through enhancing the efficiency and effectiveness of the police stations by creating a platform for sharing crime and criminal information across the police stations. The broad objectives of the project are as follows: a)Improve Service Delivery to the Public Citizens can access police services through multiple, transparent, and easily accessible channels in a citizen-friendly manner. The focus is not only to improve the current modes of the service delivery but also provide alternate modes for the public to communicate with the police. b)Enhance Outcomes in Investigation CCTNS is expected to provide the investigating Officers with the tools, technologies and information to facilitate faster and more accurate investigation of crime and detection of criminals. c)Provide Enhanced Tools for Law & Order Maintenance, Investigation, Crime Prevention, & Traffic Management Law & Order Maintenance, Investigation, Crime Prevention, and Traffic Management are core components of policing work. Information technology can both enable and improve the effectiveness and efficiency of the core activities of the police. Police should be provided with data amenable for easier and faster analysis in order to enable them to make better and informed decisions. d)Increase Operational Efficiency Information technology solution helps in reducing the repetitive paperwork/records and making the back-office functions more efficient. e)Create a platform for sharing crime & criminal information across the country There is a critical need to create a platform for sharing crime and criminal information across police stations within and between the different states in order to increase the effectiveness in dealing with criminals across the state borders. CCTNS is expected to facilitate collection, storage, retrieval, analysis, transfer and sharing of data and Information among Police Stations, Districts, State headquarters and other organizations/agencies, including those at Government of India level. f)Make the Police functioning citizen friendly, transparent, accountable, effective and efficient by automating the processes and functions at the level of the Police Stations and other police offices at various levels. g)Keep track of the progress of the crime and criminal investigation and prosecution Cases, including progress of cases in the Courts.</p> <p>Benefits of the project The following are the benefits achieved from successful implementation of the project Benefits to Citizens i)Multiple channels to access services from police ii)Simplified process for registering complaints / escalation. iii)Simplified process for tracking and knowing progress of a case. iv)Check vehicle status to ascertain involvement in crime before buying v)Help department by giving information on the occurrence or likely occurrence of a crime/ whereabouts of wanted criminals vi) Help department by giving information about identification/whereabouts of missing persons displayed in the portal Benefits to Police Department Provide Investigating Officers with the required tools, technologies and information to facilitate faster and more accurate investigation of crime and detection of criminals. Improve Police functioning in various other areas including Law & Order, Traffic Management, curbing organized crimes and resource management. . Facilitate collection, storage, retrieval, analysis, transfer and sharing of data and information among Police Stations, Districts, State Headquarters and other organizations/agencies, including those at Government of India level. Monitor progress of investigation of cases including progress in courts and disposal. Reduced workload of the police station back-office activities including preparation of regular and ad-hoc reports and station records management Create a collaborative knowledge-oriented environment where knowledge is shared across the different regions and units</p>
Beneficiary of the project	

Details of Project Head

Name	Ashish Bhengra
Designation	Additional Director General of Police
Gender	Male
Address	State Crime Record Bureau, No. 95, Santhome High Road Chennai
Pincode	600028
State	Tamilnadu
Phone Number	04424959007
Mobile Number	9962200088
Email-ID	adgpscrb@gmail.com

Details of team members, if any, other than Project Head:-

Name(1st team member)	Dr. Ambresh Kumar
Designation(1st team member)	Dy Director General (NIC)
Name(2nd team member)	Peter Francis Thambusamy A
Designation(2nd team member)	Technical Director, NIC
Name(3rd team member)	Shridevi B
Designation(3rd team member)	DSP - PCW
Name(4th team member)	Rajkumar R
Designation(4th team member)	Inspector Headquarter
Name(5th team member)	Sathiyamoorthy
Designation(5th team member)	Inspector, SCRB
Name(6th team member)	Pannerselvam
Designation(6th team member)	Inspector, SCRB
